

Galaxy Comics #1 Blue Land's Revenge!

Sunday (16th of February 2025)

Blue Land has been blown up several times by Me, Evan and Lennon and Logan is sick of it!

Logan: CAN YOU GUYS PLEASE STOP!

Anyways Evan and I have been doing some “tests” on some unclaimed land like for example blowing it up with TNT and also placing lava everywhere, why because Logan is “SICK OF IT!” and we can’t do “tests” in his country anymore.

Monday (17th of February 2025)

Lennon has been telling me to stop blowing up Logans country but I “Obviously” don’t want to but to stop his and Logan’s complaining I will have to.

Evan told me that Logan and Lennon the Two Ls of Joy or Love or whatever have been talking nonsense about me and Evan, and they would blow up our countries, but I don’t believe that.

Tuesday (18th of February 2025)

Logan accidentally said “oh I WILL BLOW UP AIDANS COUNTRY AND MAYBIE EVANS TOO!” And starts to laugh very loud with Lennon but Lennon realises that they joined the call by accident and Evan, and I heard the whole thing. Evan and I imminently went to our country secret base to plan something.

Wednesday (19th of February 2025)

Evan started to use his country’s money to buy upgrades for **Work-land** and My Country **the Galaxy Republic** to protect our people and our history. I heard some missiles go very fast in the air but it’s probably nothing!

Logan: "LENNON LETS KEEP FIRING NUKES AND MISSLIES AT AIDAN'S AND EVAN'S COUNTRIES! "

Lennon: "UNDERSTOOD LOGAN!" "And also sorry for blowing up your country in the past."

Logan: "Whatever the past is in the past anyways LET'S KEEP FIRING!"

Thursday (20th of February 2025)

Evan and I woke up early to prepare for the next phase of our plan. We decided it was time to take a defensive stance and ensure the safety of our citizens.

We convened a council meeting with our top advisors and strategists from both Work-land and The Galaxy Republic. After intense discussions, we decided to deploy advanced missile defence systems across our territories to intercept any incoming threats.

The implementation of these systems began immediately, with engineers working around the clock to ensure everything was operational as quickly as possible. As the defences were being installed, Evan and I took the opportunity to address the citizens, reassuring them of their safety and urging them to remain calm and united in the face of the aggression from Logan and Lennon.

Meanwhile, reconnaissance teams were dispatched to gather intelligence on Logan's and Lennon's movements and capabilities. This information would be crucial in planning our next steps and ensuring that our countermeasures were effective.

As the days progressed, the tension between our countries grew, but so did our resolve. The people of Work-land and The Galaxy Republic came together in solidarity, determined to protect their homes and their way of life.

Friday (21st of February 2025)

Lennon and Logan unfortunately blew up my country and Evans too.

This is sad...

Logan: "ha-ha yes we indeed got revenge"

Lennon: "I kind of feel bad we killed 3 billion people because of one tiny explosion which only killed 3411 people"

Logan: "I mean I kind of feel bad too"

Lennon and Logan: We both feel bad...

Aidan: (wakes up from his dream) WHO WHAT WHERE AND WHY

... wait it was a dream the whole time

Logan: finally, you're awake come on let's go see Lennon

Aidan: Oh ok!

Saturday (22nd of February 2025)

Evan: Hi guys can I go with you guys!

Logan: ok fine just please don't argue with Lennon!

Evan: ok fine!

Lennon: hi guys lets go to my country

Aidan and Logan and Evan: Ok Lennon (walks away)
